

Kisi/Inspextor Integration Guide

This guide provides instruction on how to connect the Kisi access control reader to the Inspextor Platform

Step 1: Review below wiring diagram and hardware set-up.

Wiring the System

Overview With External Power Supply

Kisi Hardware Set-up

Step 1: Point Kisi to the Inspextor Platofrm

Step 2: Mapping the designated location

 In the Kisi module on Inspextor, select "Set-up" and Map the designated Place and hit "Save"

ME Place PLACE ID C 12370
C 12370
ihowing page 1 of 1.total records 9 filtered from 1 total records
Place Mapping ×
NAME ID NYC 12370
Save Close

Step 3: Mapping the device

- Select "Add new mapping"
- Select the Device to map
- Once selected, hit "Save"

KISI SETUP					
Add new mapping NAME	Devices	DEVICE ID			
Front		23378			/ 0
Conference		23390			/ 0
Showing page 1 of 1,total records 9 filters	ed from 2 total record	Device Mapping		×	Previous 1 Next
		NAME	DEVICE ID		
				Save Close	

Step 4: Add Actor Mapping

- Select "Add new mapping"
- Select "Actor Mapping"
- Hit "Save"

(Note: you will need to add all users on your Kisi admin account as well as on the Inspextor Kisi set-up page)

SI SETUP			
Add new mapping	Actors *		
NAME	EMAIL		
Ak	ak@mhtlighting.com		/ 0
Greg	gsilverman@mhtlighting.com		/ 8
